Experience

2023 - Present
Freelance
Front-End Engineer
Engaged in diverse projects as a Front-End Engineer, consistently delivering high-quality solutions tailored to client needs. Proficient in leveraging cutting-edge technologies such as React.js, Next.js, and TypeScript to develop dynamic and responsive user interfaces.

2022 - 2023
GlobalLogic
React Engineer
Transitioned Oracle salesperson application into a React micro-services environment. Technologies: ReactJS, TypeScript, React Testing Library, Jest, Material UI, Node.js. Played a pivotal role as a UI/UX designer within the team, resulting in a streamlined development process, heightened scalability, and elevated user satisfaction. Achieved smoother workflows and accelerated iterations, culminating in optimized application performance and enhanced user delight.

2021 - 2022
ModdPro
Front-End Engineer
Crafted landing pages with React, Next.js, and CSS Tailwind. Designed product imagery in Photoshop, integrated chatbot APIs, and optimized SEO to create a user-friendly web app with seamless product updates.

2020 - 2021
KISAFIX
Front-End Engineer
Reconstructed and optimized a dated PHP-based salesperson webpage. Technologies: ReactJS, TypeScript, React Testing Library, Jest, Node.js, CSS Styled Components. Spearheaded the integration of a robust payment checkout form and ensured seamless cross-browser compatibility. These enhancements not only elevated the salesperson experience but also fueled substantial organic traffic growth.

2019 - 2020
LV16 News
Front-End Engineer
Web-app optimization. Technologies: ReactJS, TypeScript, Styled components. Integrated REST APIs for dynamic weather data, and optimized SEO for social media engagement. Achieved notable improvements in user experience and satisfaction.
