Experience

2023 - Present
Freelance
Front-End Engineer
- **Increased client satisfaction** by 15% through consistent delivery of high-quality, user-centric web solutions built with React.js, Next.js, and TypeScript.
- **Streamlined development processes** for multiple clients by leveraging expertise in cutting-edge technologies, enabling faster project completion times.
- **Developed and implemented a dynamic e-commerce platform** for a client using React.js and Next.js, resulting in a 20% increase in online sales within 3 months.

2022 - 2023
GlobalLogic
React Engineer
- **Successfully migrated a complex Oracle salesperson application to a React micro-services** environment, improving scalability and maintainability.
- **Pioneered a dual UI/UX role within the team**, streamlining the development process and leading to increased user satisfaction by 10% as measured by internal surveys.
- **Optimized application performance** through meticulous code optimization and testing practices, leading to faster loading times and smoother user experience.

2021 - 2022
ModdPro
Front-End Engineer
- **Built a user-friendly and interactive web app** with React, Next.js, and CSS Tailwind, featuring an integrated chatbot API for enhanced customer support.
- **Developed a highly effective SEO strategy**, leading to a significant increase in organic traffic to the company's website.
- **Designed product imagery**, contributing to a positive user experience and brand perception.

2020 - 2021
KISAFIX
Front-End Engineer
- **Modernized and optimized a legacy salesperson webpage** using React.js and TypeScript, significantly improving user experience and functionality.
- **Spearheaded the integration of a secure and user-friendly payment checkout form**, leading to a **streamlined sales process** and increased customer satisfaction.
- **Ensured seamless cross-browser compatibility** for the revamped webpage, guaranteeing a consistent and positive experience for all users.

2019 - 2020
LV16 News
Front-End Engineer
- **Enhanced user experience and engagement** for the LV16 News website by optimizing the web app, integrating dynamic weather data via REST APIs, and implementing SEO best practices.
- **Increased website traffic** from social media through effective SEO optimization strategies.
